

銓益鐵箱工業有限公司
Quan Yi Tiexiang Industry Co., Ltd.

**Original
Equipment
Manufacturer**

『Focus on Quality · Achieve Value』

HISTORY

CERTIFIED

Produce and design iron boxes and iron frames

ISO 9001

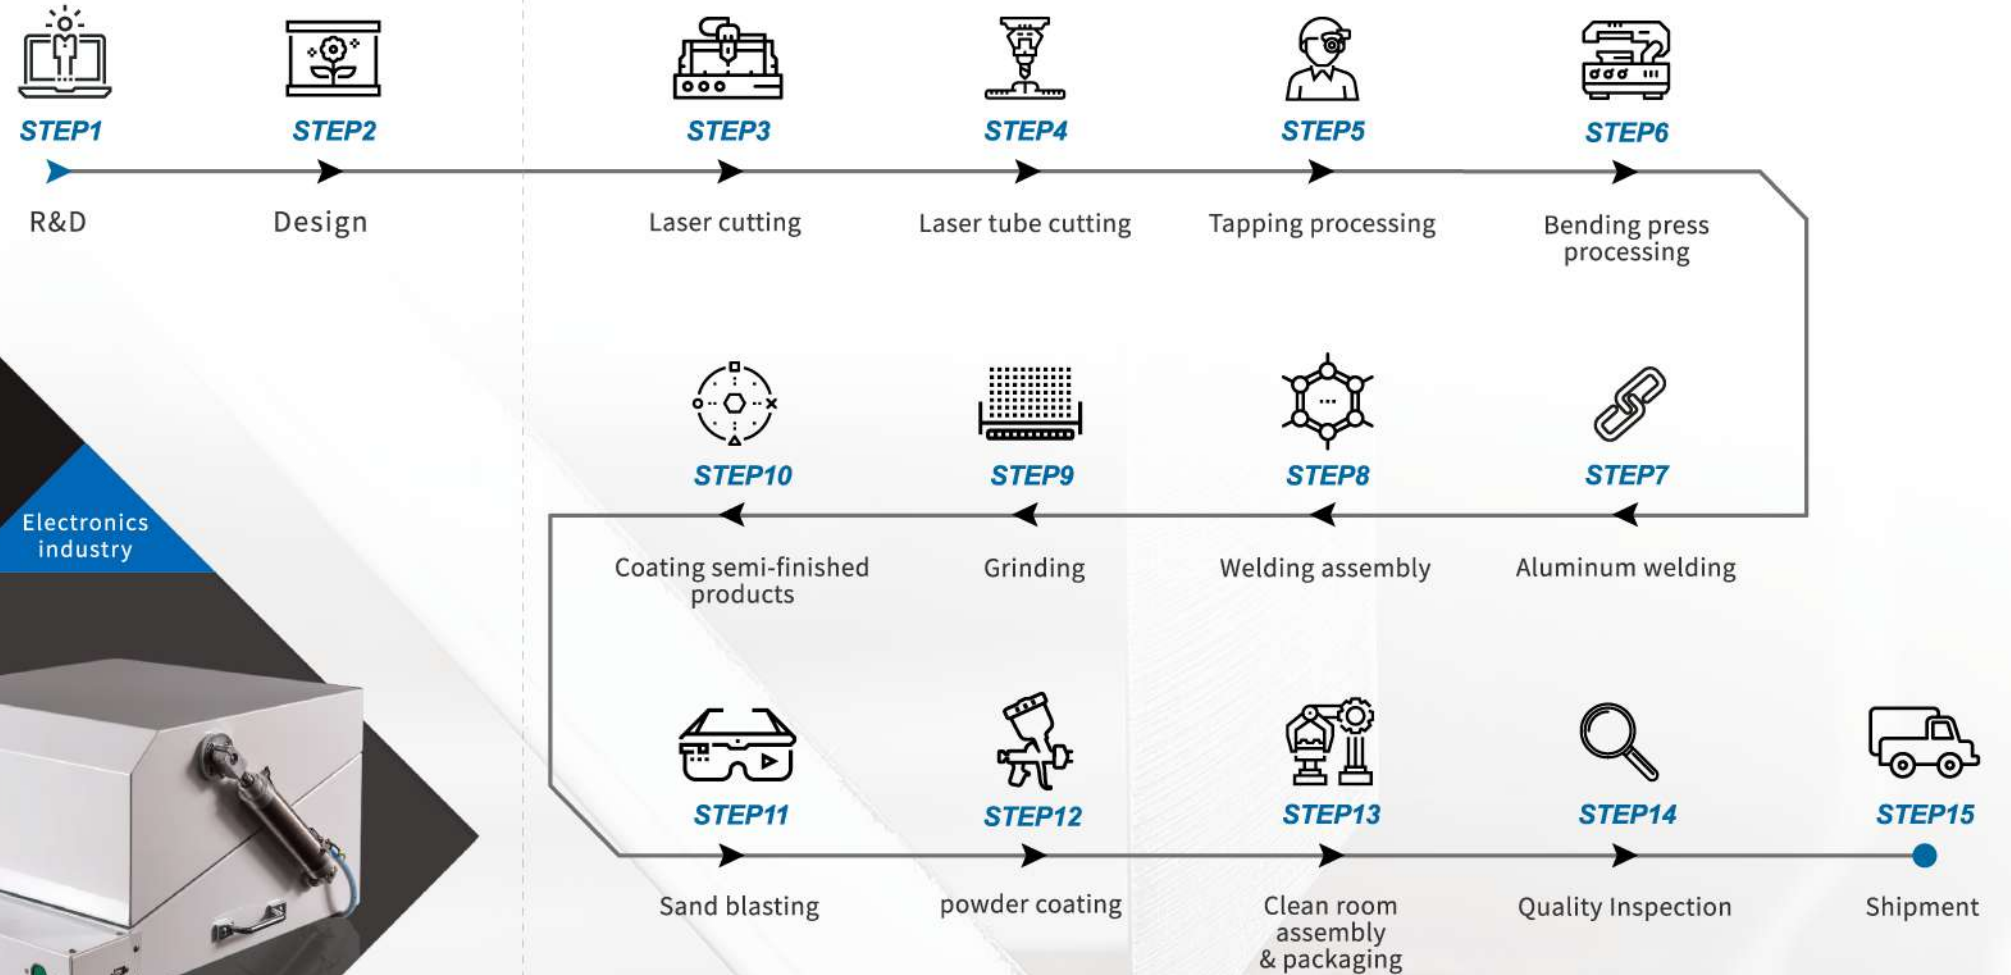

ISO 14001

Our company holds the business philosophy, 『 Quality 、 Participation 、 Welfare 、 Perseverance 』 to pursuit the innovation spirit.
 Quality Policy : 『Excellent 、 Professional 、 Technica l 、 Service』
 Environment Policy : 『 3R : Reduce 、 Recycle 、 Reuse 』

- 1999** Qin Yi Company was established in Bade, Taoyuan which engaged in circular knitting machine sheet metal and safety net.
- 2005** Quan Yi Tiexiang Industry Co., Ltd. is established, and purchased NCT punching machines & RG press to produce various iron boxes and equipment of clean room.
- 2007** Quan Yi moved to the current location (Da Xi) with extending sheet metal factory and purchased punching machines and bending press machines to meeting the fast-changing world trend.
- 2009** Imported the first Japanese OTC robotic arm welding system to achieve automate welding.
- 2012** Imported Japanese AMADA 4000W laser processing machines and sheet metal producing management ERP system to implement effective processing management, ensure the deadline of shipment and the integrality of parts with vertical integration management.
- 2015** Imported Japanese AMADA EML3610 punching·laser·tapping complex machines.
- 2017** Built up professional powder coating equipment. We have begun to provide our Zcustomers one-stop service.
- 2018** Imported Japanese ST-Link deburring machines·6 sheet metal automated storage equipment and fiber laser pipe cutting machines.
- 2019** Imported Japanese AMADA 3KW fiber laser machines & HG1303 bending press machines with ISO 9001 and ISO 14001 certification to build up a quality assurance system.

PRODUCTION PROCESS

LASER DEPARTMENT

3000W fiber laser machine

4000W CO2 laser cutting machine

EML3610NT punching laser complex machine

Japanese ST-Link deburring machine

6 sheet metal automated storage equipment

BENDING DEPARTMENT

AMADA-HG13031 and AMADA bending press machine

Toong-Woei CNC-30042 4m2 bending pressing machine

bending press processing

CNC bending processing
